Hexol® - first international workshop

Location: Hotel Double Tree Hilton, Oradea - Romania

Here we are, this time gathered in the official mood with our partners from abroad.

This time, we organized ourselves into an International Workshop from a Friday 20th of May until Sunday 22nd of May.

The workshop was meant to serve as a teaching class for our friends, with many basic information about the oil and grease industry.

We had guests from the following countries:

Croatia, Bosnia, Bulgaria, Hungary and last, but not least Slovenia

We've learned, we've talked, we ate, we drank, we sang but we had fun also.

It was a beneficial meeting that has brought many more satisfactions at the end.
