**Hexol® lubricants also in Estonia!**  
**Hexol® announces his first distributor in Estonia**

The expansion process continues to be a priority for **Hexol®** Management and now, in the 25th year of activity, we are proud that Hexol® lubricants can now be found in **Estonia** through our new partner **Flexoil OÜ**

Flexoil OÜ was founded in 1998 and its main activity is the import and distribution of lubricants, spare parts and consumables for cars in Latvia, Lithuania and Finland, being one of the most important distributors in Estonia, with clients from various fields: gas stations, shops, car repair shops, industrial and naval business.

*"We are sure that this partnership will be successful for both companies due to our new partner's economic and logistic strength that will help **Hexol®** products flourish on the Estonian market and beyond"* - states Mr. Daniel Condratov - President of Hexol®.
