

## Hexol® had a positive evolution in 2023 as well!

### Development and investments - objectives proposed and achieved by Hexol®!

**Hexol®** continued to evolve with great effort and the figures for 2023 confirm this. **Hexol®**'s mission has been from year to year to build trust and develop both financially and relationally around the world.

**Hexol®**'s performance was recorded on the background of sales growth on the external market by 41.29% compared to 2022 and on the national market, the sales value remained at a similar level as in 2022.

*"Over the years, we have managed to overcome our proposed objectives through partnerships and investments that have led to top results. In this context, comparing the results recorded in 2023 against the estimates made by the **Hexol®** Management, we are proud that the estimated figures were exceeded. With the support and involvement of us and our partners, I believe that the opportunities will be favorable in 2024 as well and the demand for **Hexol®** products will remain high." – states Mr. Daniel Condratov - President of **Hexol®**.*
